# NUTSERT / PULL-SETTER (BODY ONLY)

**Brand: Gatx** **Product Code: GP-0620**

## NUTSERT / PULL-SETTER (BODY ONLY)

M6 to M10 Capacity Nutsert/Pull-Setter. This product is used widely in industry for fastening of threaded inserts, and it's double trigger design is simple and easy to use.

The head assemblies are a positive screw-on type which are harder wearing than the cheaper "quick change" type associated with other tools.

You can order your specific head assemblies separately to suit your particular application (see Associated Accessories).

Please ensure you choose the correct tool to match your required head assemblies. Look for our "M" rating to ensure you get the right powered product.
