

GREAVES3D 200L PROFESSIONAL FUEL BOWSER

Brand: Greaves 3D

Product Code: 1774-04-00

GREAVES3D 200L PROFESSIONAL FUEL BOWSER

200 Litre Fuel Bowser from Greaves 3D for Refueling includes Safety Shut off! Used to accurately pump fuel in and out of your car and or fuel rig, you can clean up your garage by eliminating dump bottles and improve your accuracy with the integrated scale.

Made from stainless steel and aluminium our fuel transfer bowser has a 200L capacity, and NOW features a 40L/min Pump with automatic full tank pump shut off and is built with ATEX approved components.

- * 10" Screen - We have upgraded the 10" screen so sensitivity and clarity is improved.
- * V2 software - It is more user friendly making the whole filling processing quicker and easy to use. Mass and temperature display and speed controller.
- * WiF Connectivity - We have updated & increased the wifi strength so transferring data is instant.
- * 3 load cell system - This ensures greater accuracy and quicker stabilisation as they are positioned like a triangle.
- * Dash 12 fuel lines & suitable for E20 and high octane fuels. Optional dry break fittings.
- * Baffled Tank - Again this ensures stabilisation is achieved so the engineer can receive data quicker.
- * Drain Hose - We have added Drain hose so no fuel is in the tank when travelling.
- * Anti-Static Braked Rubber Wheels - We have upgraded the wheels and ride height so they work on uneven surfaces
- * Lighter Design - This improves mobility of the bowers and keeps the traveling costs down.

Specifications

Capacity	200 Litres
