CARLIFTER SET (4PCS) MUSTANG GT4 Gen7

This is the complete set of 4 (two front and two rear) car lifters for the FORD Mustang GT4 7th Generation (Gen7) Race Vehicle.

These "Double Up" stands, otherwise known as "Elephant Feet", are to fit the Krontec jacks that come fitted in the vehicles and ensure they fit underneath the car perfectly.

This SET of Car Lifters are made by the jack manufacturer, in Germany, to fit the jacks to avoid possible damage making them safer! They assist in perfectly aligning to the jack piston and subsequent mating collar, whilst ensuring NO damage is done to the piston shaft.

These details are invaluable to best protect your investment and provide a long, safe, service life.

Please contact us if you are unsure if this set suits your vehicle so we can ensure that you get what need, right out of the box!
