1/2" MULTI DIRECTION S/STEEL SWIVEL

Product Code: DV11MTFB12IXNE

1/2" MULTI DIRECTION S/STEEL SWIVEL

1/2" Multi-Directional Stainless Steel Pneumatic swivel fitting with an 11mm id bore for air flow is unique in many ways. Suitable for underground mining and hazardous environments. Nothing comes close to the flexibility this swivel provides, plus it does not restrict the air flow to the tool. This is achieved through its linear flow design which eliminates sharp angles inside the swivel.

360 degree rotation on two points ensure absolutely no tangled supply hoses and an amazing reduction of friction making the movement in your hand very free and easy!

There are many swivels available in this range for varied applications including fuel, paint and other fluids transfer. Specialty swivels also made to order, including electrical conductivity through the swivel.
