16MM ID SWIVEL X 1" M/F - VITON

Product Code: **DV16MFG1VT**

16MM ID SWIVEL X 1" M/F - VITON

1" swivel fitting is unique in many ways. Mostly sold for fuel applications. This fitting will fit onto most fuel filling nozzles used on Australian mine sites.

Excellent OH&S product as it reduces operator RSI when operating the pump handle and also assists in keeping hoses untangled - thus reducing risk of operator twisting wrist. Nothing comes close to the flexibility this swivel provides, plus it does not restrict the flow through the swivel. This is achieved through its linear flow design which eliminates any sharp angles inside the swivel.

360 degree rotation on two points ensure absolutely no tangled supply air hoses and an amazing reduction of friction making the tool movement in your hand very free and easy!

16mm id bore x 1" Male x 1" Male threads

There are many swivels available in this range for varied applications including fuel, paint and other fluids transfer. Specialty swivels also made to order, including electrical conductivity through the swivel.
