

3/8" HIGH PRESSURE S/STEEL SWIVEL 2R

Brand: Variacor

Product Code: DV6MFB38HPIXEM

3/8" HIGH PRESSURE S/STEEL SWIVEL 2R

This Stainless Steel 3/8" BSP male and female High Pressure free rotation coupling, has EDPM seals and an inside Ø of 6mm and features unique rotating "knuckle" joint and also a 360 degree rotating end.

The uniqueness of the rotations allows full operator comfort and ease of use and eliminates tangled hoses. This product and others in our range are also used widely because of their ability to enhance reduction in RSI claims.

Examples of applications for use are High Pressure spraying systems and cleaning, dangerous or explosive environments etc, please check with us before ordering for the suitability to your applications ...

If you have a specific requirement we look forward to hearing from you with your application example and the gases or fluids you wish to use, with this information we can offer the right solution for you!
