EARTH STRAP BENDING TOOL- HYDRAULIC

Product Code: ESBTH-H

EARTH STRAP BENDING TOOL- HYDRAULIC

Earth strap bending tool with Hydraulic hand pump performs quick, safe, accurate and easy bending of copper earth strap for commercial and Industrial electrical installations. This tool has the capacity to bend flat copper strap material with the width of up to 38.00 mm and thickness up to 3.30 mm.

This product is complete with everything you need to perform the job, including a 2 metre safety hose complete with wire guards. This product was developed by us from customer feedback and requirements to safely perform this job.

The specially designed and manufactured head assembly is made from premium materials and features surface hardening to provide durability and also rust resistance capabilities. The head is optimally balanced for operator comfort.

All serviceable parts in the kit are available and we can perform full after sales support.
