

H/DUTY ANGLE HEAD DIE GRINDER

Brand: **Gatx**

Product Code: **GP-0549W2-14**

H/DUTY ANGLE HEAD DIE GRINDER

1/4" Heavy duty right angle die grinder complete with safety throttle lever and polymer housing. This product features a 360 degree rotational, silenced rear exhaust and also a 360 degree swivel inlet to eliminate tangled supply air hoses.

The Polymer housing eliminates the "chill factor" normally associated with air tools. This tool can also accept Twist Lock discs by use of an adaptor and pad assembly available in either 2" (Part# RLP205) or 3" (Part# RLP305) and then it can be used for gasket removal, parts cleaning, or just about anything you can think of. This is a product that should be included in any tool box!

The front head also features a grease nipple to allow easy maintenance/greasing of the front head gears, ensuring you get the most out of this product.
