

3/8" ANGLE DRILL C/W KEYED CHUCK

Brand: **Gatx**

Product Code: **GP-0649W**

3/8" ANGLE DRILL C/W KEYED CHUCK

3/8" Reversible angle head drill. A great product with a wide range of applications. Quality gears and internal components ensures you get what you pay for, plus you can change the standard chuck to a keyless version if required (see Associated Accessories).

This tool can also be fitted with an optional extra silencer assembly (Part# G-15 or G-15B) to further reduce the noise level - an important OH&S issue!
