MODEL H-1000-A ANALOGUE DUROMETER Type A
Brand: REX   Product Code: H-1000-A

MODEL H-1000-A ANALOGUE DUROMETER Type A

The Model H-1000 Mini-Dial Durometer is both compact and easy to use. Its small dial face and included leather clip-on carrying case make it easy for an inspector to carry the gauge for work around the shop, or out in the field. The H-1000 durometer holds the maximum reading until reset by pressing the button at the top of the gauge. The max-hold feature and small dial size make the H-1000 a good choice for hard to reach places, or for out of sight testing.

Size: 42.55MM X 142.24MM (h) (1.675" x 5.6" H)
Weight: 109.15 Gram (3.85 oz.)
