

WHEELED BLACK HARD CASE WITH TRIPOD KIT

Brand: **HPRC**

Product Code: **HPRC6300W-TRI**

WHEELED BLACK HARD CASE WITH TRIPOD KIT

HPRC 6300W Wheeled Black Hard Case For Tripod, Mic/Light Stand w/ Tripod Kit Insert

This version of the case comes with the tripod kit.

The black 6300 Wheeled Hard Case for Tripod, Mic Stand, Light Stand or Golf Clubs [P6300W] is an ATA 300 rated case that is meant to hold your audio, video and photo gear in safety. HPRC cases are backed by its lifetime replacement warranty.

The virtually unbreakable hard resin composition is supported on the inside by a neoprene O-ring that keeps it both air and waterproof. The addition of durable aluminum enhances the overall strength of the case. This combination of materials makes for a lighter case that translates into easier portage and lower shipping costs. The interior is empty with plenty of storage space for gear.

The long design makes it perfect for storing equipment such as a tripod. Due to its rugged construction, it can withstand the rigors of travel and impact. It's also able to handle gross temperature swings making it perfect for the pro who's always on the go. The corners have been reinforced to withstand bumps and the inevitable contact experienced during travel. The case is transported by built-in wheels and dual, soft grip, rigid handles. Special attention has been given to the handles since this is a point of constant stress on the case. The handles are designed to be comfortable as well as making the case easier to roll along.

The case is opened on the long side for easy access to its contents and secured by a double-hinged latch system. The latches have been strategically placed along the base to make it harder for accidental opening. The built-in air pressure valve offers additional protection to the contents during long trips.

the 6300W will provide you with a reliable and uniquely stylish way to transport your gear.

- * For video, audio and photo equipment and accessories
- * & TTX01 high-strength resin case
- * Large and convenient central handle
- * Classic long side opening for easy access
- * Built-in wheels

The HPRC 6300W Hard Case with Empty Interior (Black) is a lightweight, waterproof, unbreakable case with built-in smooth rolling wheels. It meets ATA 300 specifications for transit cases. The hard-resin shells are virtually unbreakable, and the interior rubber O-rings keep the case air and watertight. It comes with a comfortable soft-grip handle for carrying and an air pressure release valve. It is designed to carry and protect tripods or light stands. It is backed by a lifetime replacement warranty.
