

AIR OPERATED CUTTER/CRIMPER HAND PIECE

Brand: Nile

Product Code: MP35A

AIR OPERATED CUTTER/CRIMPER HAND PIECE

Nile air operated wire cutter/crimper is a powerful handheld tool that can be used to perform many types of work including cutting, crimping, punching and caulking just by changing the blades to suit the application.

The capacity and type of material the wire cutter can cut varies depending on which blade is used with the tool. Select the blade suitable for your cutting application by referring to the Nile Air Cutters Catalogue below.
Blades do not come with the tool and are sold separately.

The standard blade for this tool is the P8P heavy duty blade which has a 4.0 mm steel wire cut capacity.

Features:

- * Safety trigger
- * Safety valve
- * Hanger point

Made in Japan.
