

1/2" IN-LINE LUBRICATOR

Product Code: **PL300**

1/2" IN-LINE LUBRICATOR

Applications:

- * Designed to protect portable or stationary air tools by efficiently oiling the tool mechanisms.
- * Each time an air tool is operated, a fine mist of oil is injected into it along with the air from the compressor.

Use:

- * Type of oil to use: Use any petroleum-based, non-detergent light weight oil (SAE 10/150SSU) which will readily break up into a mist, i.e., Mobil DTE light or comparable oil.

Features:

- * Transparent sight disc allows visual inspection of oil level.
- * Oil flow regulated by screwdriver screw adjustment.
- * Minimum flow rate is 30 SCFM.

Installation:

- * Installation is recommended within 25 feet of the tool to be lubricated.
- * Refer to the arrow for proper air flow direction.

Safety Notes:

- * Not recommended for constant flow applications. For reciprocating tools only.
- * Do not use any synthetic oil or oils containing additives or solvents.
