

3BOLT VER MALE BIG QRELEASE COUPLER

Brand: Krontec

Product Code: QR-33-03B

3BOLT VER MALE BIG QRELEASE COUPLER

Krontec BIG Quick Release steering coupler 3 BOLT HOLE Pattern, MALE PART ONLY. This is the steering column side that fits into the female part that is fitted to the steering wheel (see Related Products). This fits steering columns with a 3 bolt hole pattern.

This was made after a specific customer request, therefore if you have a special application, just let us know, we can help!

Does not come with the 22 Pin SOCKET contacts, however if you would like these you can order the complete assembly Part# QR-33-03B-22P or see Related Products.

This part fits into the matching 6 bolt hole pattern QR-30 or QR-30-22P and the 3 Bolt hole versions QR-30-03B and QR-30-03B-22P Female Boss quick release coupling part which bolt on to the steering wheels.

A true ZERO "slop" steering quick release. Few parts in the motorsport industry are really revolutionary - but this one is definitely the market leader!

This coupling is unique in many ways. Splined products do not offer zero "slop" movement, and suffer from wear issues and they age, becoming sloppy. Most brands also don't index the wheel so it is straight when you click it on, and as well, they do not give you a positive lock indication so you know the wheel is in fact securely locked on the car. With this product you can forget all of these issues, it just works, and very well at that!

The Krontec steering coupling system is completely different. You can see all options related to this steering quick release in our site - such as weld on bosses. We can even supply the couplings with Professional German electrical connectors fitted, allowing your data to be neatly passed through the coupling point and avoid ugly and cumbersome cables.

The Male portion of the boss is both tear-shaped and tapered depth-wise. This coupling centers the steering wheel perfectly and glides on with absolute ease, whilst providing complete confidence your steering wheel is 100% locked and cannot come off unintentionally.

One of the most critical components to your vehicle is the steering components, can you afford to be without our solution - we believe not!
