

16MM PNEUMATIC BAR & MESH CUTTER

Product Code: **RAPIDCUT-16**

16MM PNEUMATIC BAR & MESH CUTTER

Rapidcut 16mm diameter capacity Long Reach steel bar, rebar bar and mesh pneumatic (air) cutter. Do you need a fast, efficient and safe way of cutting your rebar or mesh - this is your solution!

These air operated cutters are lightweight and easy to handle. They require minimal maintenance, reducing downtime and making them a very cost effective tool in demanding applications.

Rapidcut 16 Series cutters are fitted with 1660J cutter heads, which suits rebar and mesh to 686 Mpa (70kg/mm2) yield strength. Typical rebar and mesh sold in Australia is rated at 500 Mpa. Please contact your rebar/mesh supplier if in doubt.

1660J & 1680R cutter heads are available from stock to fit existing cutters.

There are many varied sizes of RAPIDCUT models, including long reach models, and these can be found on our web site, and also in the brochure.
