

8MM PNEUMATIC BAR & MESH CUTTER

Product Code: **RAPIDCUT-8**

8MM PNEUMATIC BAR & MESH CUTTER

Rapidcut 8mm diameter capacity steel bar, rebar bar and mesh pneumatic (air) cutter. Do you need a fast, efficient and safe way of cutting your rebar or mesh - this is your solution!

These air operated cutters are lightweight and easy to handle. They require minimal maintenance, reducing downtime and making them a very cost effective tool in demanding applications.

Rapidcut 8 Series cutters are fitted with M60L cutter heads, which suits rebar and mesh to 686 Mpa (70kg/mm2) yield strength. Typical rebar and mesh sold in Australia is rated at 500 Mpa. Please contact your rebar/mesh supplier if in doubt.

M60L & M80L cutter heads are available from stock to fit existing cutters.

There are many varied sizes of RAPIDCUT models, including long reach models, and these can be found on our web site, and also in the brochure.
