INDUSTRIAL FLUX CHIPPER

Brand: **Toku**

Product Code: **TFC257H**

INDUSTRIAL FLUX CHIPPER

Industrial flux chipper made in Japan, provides the highest quality and durability for the harshest of working environments. Features a solid chisel retaining system - Made in Japan.

This is a solid steel, yet lightweight tool, making it easy to handle and get into the tightest of spaces. Ideal for light duty chipping and surface finish work on jobs such as removing weld slag, burrs, rust, old paint.

We have found customers also particularly like to use this tool for concrete work, reworking moulds and cleaning of dirt and debris from tracks on bulldozers and other similar applications - so do not just think of this tool as a weld flux chipper, it has a multitude of other applications.

This tool body is also suitable for underground use.
